📍 Yerevan

SUMMARY

I am a frontend developer with experience in creating responsive and interactive web applications. I use HTML, CSS, and modern layout techniques such as Flexbox and Grid. I implement dynamic elements using JavaScript and the ReactJS library. I enjoy learning new programming languages and technologies, and I strive to constantly develop and improve my skills to create high-quality and functional web applications.

EXPERIENCE

Front End Developer

IThire

📅 03/2021   📍 Yerevan

I am currently working on IThire's core product, where I focus on creating a user-friendly interface. In addition to this, I am also involved in several side projects. As a frontend developer, my main responsibilities include:

- **UI Development:** I build the visual parts of websites and applications that users interact with. I use HTML, CSS, and modern layout techniques such as Flexbox and Grid to create responsive interfaces.
- **Frontend Logic Development:** I implement interactive and dynamic elements using JavaScript and the ReactJS library. I'm also familiar with Redux for state management and TypeScript, and I can use them in projects when needed.

LANGUAGES

Armenia	Native
Russian	Proficient
English	Intermediate

SKILLS

HTML   CSS   Sass   Bootstrap

Javascript   Reactjs   TypeScript

Redux
